

C TEJESH

Bengaluru, India | 9959232474 | tejeshc17@gmail.com | linkedin.com/in/tejesh-c | github.com/Mr-C-Tejesh

EDUCATION

RV Institute of Technology and Management (RVITM), Bengaluru	Expected: May 2028
B.E. Computer Science and Engineering VTU	CGPA: 8.25 / 10.0

TECHNICAL SKILLS

Languages: Python, Java
AI / ML: scikit-learn, PyTorch, NumPy, Pandas, Classification, Regression, ANN, CNN, RNN, DNN
GenAI / NLP: LangChain, LangGraph, CrewAI, RAG, Large Language Models, Gemini Embeddings, spaCy, NLTK
Backend / Web: FastAPI, REST APIs, SQLAlchemy, Pydantic, React, Streamlit, Gradio
Databases: SQL, MySQL, SQLite, ChromaDB
Deployment / Tools: Render, Vercel, Hugging Face Spaces, Git, GitHub, VS Code, Jupyter

EXPERIENCE

AI Automation & Intelligent Solutions Intern · BharatCares · Remote	Jun 2026 – Jul 2026
6-week internship conducted in association with IBM SkillsBuild and AICTE, focused on Generative AI, AI Agents, RAG, LLMs, and intelligent automation workflows. - Completed structured IBM SkillsBuild learning paths covering AI Agents, Multiagent Systems, Retrieval-Augmented Generation, and Large Language Models.	
Applied AI Resident · Capabl India · Remote	Apr 2026 – Jun 2026
2-month project-based Applied AI residency with weekly technical submissions, structured course work, and a capstone project build. - Built TalentStream AI — a multi-agent hiring system using CrewAI, LangGraph, FastAPI, and Streamlit — as the internship capstone, with deployed services.	

PROJECTS

TalentStream AI CrewAI · LangGraph · FastAPI · Streamlit · Groq	Live GitHub
- Multi-agent recruitment system that simulates a digital hiring committee: specialized agents handle JD analysis, technical screening, interview planning, and final hiring decisions. - Orchestrated agent roles with CrewAI and a LangGraph committee workflow; FastAPI backend with Streamlit frontend deployed as live services.	
Campus Maintenance Agent LangGraph · Gemini · FastAPI · React	Live GitHub
- Evidence-grounded decision-support system that retrieves similar historical maintenance cases via Gemini embeddings and cosine-similarity before generating diagnosis and repair recommendations. - Incorporates grounding validation, deterministic cost/time/urgency logic, and technician feedback; deployed as a React + FastAPI product on Vercel.	
Skin Lesion CNN Classifier PyTorch · EfficientNet-B0 · Grad-CAM · Streamlit · SQLite	Live GitHub
7-class dermoscopic image classifier using EfficientNet-B0 transfer learning with Grad-CAM visual explanations for model interpretability. - Generates PDF diagnostic reports and tracks patient history; deployed on Hugging Face Spaces.	
AI Resume Analyzer Python · spaCy · scikit-learn · Streamlit	Live GitHub
- Deployed NLP application that parses resumes in PDF and DOCX formats, extracts skills and entities using spaCy, and scores resume-JD compatibility via weighted TF-IDF + cosine-similarity. - Returns a ranked match score and actionable list of missing skills; live on Streamlit Community Cloud.	

ACHIEVEMENTS & CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified Data Science Professional — Oracle	Oct 2025
AI Automation & Intelligent Solutions Internship — BharatCares × AICTE × IBM SkillsBuild	Jun 2026
Project-Based Applied AI Residency Internship — Capabl	Jun 2026
